

The Brothers

Autumn
whisper

the Brothers (from H.C. Andersen's tale "to brødre" - two brothers) is a beautiful story about two very different brothers. Their mother had always taught them about right and reason, and to hold fast to truth, which she said is the face of God in this world. The elder brother is bright and scientifically minded. The younger brother was quieter and a dreamer. Yet they both are seeking the truth that holds the world together. One night the mighty Genius visited them, carried the elder brother in the space to travel between far and near, and kissed the dreaming younger brother on the forehead. "Be strong in fame and strong in the battle of life! With truth in your heart fly toward the land of truth!" And who are the two boys? Hans Christian Ørsted became a famous physicist and chemist. Anders Sandøe Ørsted became a lawyer, politician, and jurist, and served as the Prime Minister of Denmark. Qimisola's first flagship is named "the brothers", dedicated to our two boys. Hope two of them so different in their characters, pursue their journey to encounter the truth.

I Fratelli ("the Brothers") **Barbera di Asti DOCG** Superiore is made from 100% Barbera grapes. Those Barbera grapes are from the old vines aged 60-70 years in our biologically managed vineyard. After finishing the fermentation, the wine is stored 20 months in used medium toast French oak barrels. Transfer to stainless steel vats for 1 month before bottling, 6 more months in bottles before release.

I Fratelli wine: Intense ruby red. Aromas of blueberry with fresh cherry and raspberry, hints of spices. A dense and full-bodied wine due to its high and powerful concentration, where the persuasiveness of its taste prevents any aggressive palatal expression. The aromatic recall to a limpid and unoxidized fruit shows off a roundness and softness that make its taste silky and smooth. A majestic, harmonious, clear and strong wine in its powerful, persistent, balsamic texture.
