

Thumberlina

The name of this wine is inspired by the H.C. Andersen fairy tale "**Thumberlina**", in Italian - "La Mignolina". "Thumbelina" is the story of a tiny girl born from a flower, no bigger than a thumb. Despite her small size, she is kind-hearted and beautiful. Throughout the story, after being kidnapped by the toads, on her journey of finding home, she encounters various creatures—some who seek to exploit her and others who assist her. Finally she escapes to a warm land where she meets a prince of the flower people, someone her size, who asks her to marry him. Thumbelina, after all her trials, made friends and finds happiness, love, and a place where she belongs.

Thumbelina faces multiple adversities but never loses her compassion or hope. It suggests that despite one's size or circumstances, inner strength and goodness can lead to a fulfilling life. It's also about finding your place in the world, where true belonging and happiness lie in being accepted for who you are.

La Mignolina(Thumberlina) **Barbera di Asti DOCG Superiore** is a Barbera wine made from steel tank without aging in oak barrels. It's a third version of Barbera made by Lars. Fresh and inviting, with aromas of red cherries, raspberries, and a hint of violet. Juicy red berries dominate, complemented by nuances of cranberry and a whisper of white pepper.

The simplicity of its steel tank aging allows the pure fruit flavors to shine. Smooth and elegant, this Barbera di Asti offers a fresh and simplistic style, perfect for those who appreciate a more straightforward, yet beautifully expressive wine.

We hope it carries the spirit of "Thumberlina" which will express its beauty with simplicity and generosity at its heart.
